

RESTAURANTS & CAFES

Unify POS, kitchen, inventory and accounts —
across every outlet.

Transform Your Business with Intelligent Automation

● THE PROBLEM

At close, the cash never matches the sales.

1

The day's cash never tallies

Counter cash, cards and online orders are reconciled by hand at night — manual tallies get 1.6–4% of entries wrong.

2

Stock quietly walks out the back

With no recipe-level tracking, pilferage and over-portioning disappear inside the word 'wastage'.

3

Voids and discounts are an open leak

Manual bills can be edited or cancelled after the fact — a quiet channel for cash to vanish — businesses lose ~5% of revenue to fraud a year (ACFE 2024).
