Transform Your Business with Intelligent Automation

● THE PROBLEM

Cash services, vanishing product, disputed payouts.

1

Cash services that skip the books

Walk-in payments are written by hand — easy to miss a bill and pocket the cash — businesses lose ~5% of revenue to fraud a year (ACFE 2024).

2

Product disappears off the shelf

Backbar and retail stock isn't tracked per use, so pilferage hides inside everyday 'consumption'.

3

Balances and commissions get disputed

Package usage and stylist payouts are tallied by hand — breeding errors and disputes — manual tallies get 1.6–4% of entries wrong.
